

Dr. Largent,

I'd like to share my appreciation for the outstanding job you did facilitating our leadership training. The activity was highly engaging, thought provoking, and meaningful for all of our participants. We ended the day having valuable insight and understanding of what each of our members need and expect to be an effective and successful leadership team.

I thought the activity was well organized and provided the perfect balance between theory and application. Your stories brought to life the challenges we face as leaders everyday in our profession and the importance of being a strong team so that we can overcome them. We can't wait to have you back!

Shane Conklin
Assistant Superintendent

STRONG ROOTS. POWERFUL WINGS.
